

## Extended Schools Programme

Schools are asked to run many more activities for their students outside the 'normal' school timetable.

The Phoenix Partnership (East) Ltd can offer you a varied and exciting range of activities as part of your Extended Schools Programme.

We have activities that run for up to an hour which include games to promote numeracy, business understanding, enterprise, personal safety and and understanding of the law. Other programmes run over half or whole days or a number of mornings depending on the activity and your requirements and are suitable for half term and summer holiday programmes.

During the activities students are encouraged to develop many skills including problem solving, creativity, time management and team working. They also come across business terminology and build self confidence.

In line with government strategy in safeguarding children and young people all delivery staff have received an enhanced CRB disclosure.

To discuss your requirements or book an activity  
email us at [maria@tppe.org](mailto:maria@tppe.org) or call us on 01268 249799.

**Full range of abilities accommodated:  
Gifted and Talented, Bright Underachievers, Special Interests & Needs**
